The SafePal White Paper has been published and issued by SafePal Wallet for informational purposes only and is required to be read alongside the Terms if the prospective purchaser plans to use any of the SafePal products. This Whitepaper is a working document and is subject to changes and errors. Any purchase or use of services from SafePal creates a binding arbitration agreement between SafePal and the user/purchaser as the Terms are outlined. This Whitepaper does not constitute a prospectus for the purposes of [Directive 2003/71/EEC, and the amending directive 2010/73/EU] [Regulation (EU) 2017/1129], and is not intended to constitute an offer of securities or a solicitation for investments in securities in any jurisdiction. The purpose of this Whitepaper is to provide potential purchasers with the information on SafePal’s ecosystem to allow the purchasers to make their own decision as to whether or not it wishes to proceed to purchase SafePal Tokens and use any of the SafePal ecosystem of products.
Disclaimer

This Whitepaper does not constitute an offer or invitation, or any other sale or purchase of shares, securities, or any of the assets. Any possession of SFP shall not grant any rights in any form to the user, including but not limited to any rights of ownership, interest, profit, redemption, property or intellectual property, decision making, or any other such rights, such as any rights of financial or legal nature, in SafePal the corporation or its affiliates. SFP may be used for protocol and ecosystem governance which has no bearing to the corporation or its affiliates.

Users from the following countries or regions will not be able to participate in the SFP token sales: Australia, Belarus, China, Democratic Republic of Congo, Cuba, Iraq, Iran, North Korea, Sudan, Syria, United States of America and its territories (American Samoa, Guam, the Northern Mariana Islands, Puerto Rico, and the U.S. Virgin Islands), Zimbabwe.
You acknowledge and agree that there are numerous risks associated with purchasing SFP, holding SFP, and using SFP for participation in the SafePal Platform. In the worst scenario, this could lead to the loss of all or part of the SFP which had been purchased. IF YOU DECIDE TO PURCHASE SFP, YOU EXPRESSLY ACKNOWLEDGE, ACCEPT AND ASSUME THE FOLLOWING RISKS:

1. Uncertain Regulations and Enforcement Actions
The regulatory status of SFP and distributed ledger technology is unclear or unsettled in many jurisdictions. The regulation of virtual currencies has become a primary target of regulation in all major countries in the world. It is impossible to predict how, when or whether regulatory agencies may apply existing regulations or create new regulations with respect to such technology and its applications, including SFP and/or the SafePal Platform. Regulatory actions could negatively impact SFP and/or the SafePal Platform in various ways. The Foundation, the Distributor (or their respective affiliates) may cease operations in a jurisdiction in the event that regulatory actions, or changes to law or regulation, make it illegal to operate in such jurisdiction, or commercially undesirable to obtain the necessary regulatory approval(s) to operate in such jurisdiction. After consulting with a wide range of legal advisors and continuous analysis of the development and legal structure of virtual currencies, a cautious approach will be applied towards the sale of SFP. Therefore, for the token sale, the sale strategy may be constantly adjusted in order to avoid relevant legal risks as much as possible.
2. Inadequate disclosure of information
As at the date hereof, the SafePal Platform is still under development and its design concepts, codes, and other technical details and parameters may be constantly and frequently updated and changed. Although this white paper contains the most current information relating to the SafePal Platform, it is not absolutely complete and may still be adjusted and updated by the SafePal team from time to time. The SafePal team has no ability and obligation to keep holders of SFP informed of every detail (including development progress and expected milestones) regarding the project to develop the SafePal Platform, hence insufficient information disclosure is inevitable and reasonable.

3. Competitors
Various types of crypto management platforms are emerging at a rapid rate, and the industry is increasingly competitive. It is possible that alternative parties could be established that utilize the same or similar code and protocol underlying the SafePal Open Wallet Platform and attempt to re-create similar facilities. The SafePal Platform may be required to compete with these alternative parties, which could negatively impact SFP and/or the SafePal Platform.
Risks

4. Loss of Talent
The development of the SafePal Platform greatly depends on the continued co-operation of the existing technical team and expert consultants, who are highly knowledgeable and experienced in their respective sectors. The loss of any member may adversely affect the SafePal Platform or its future development. Further, stability and cohesion within the team is critical to the overall development of the SafePal Platform. There is the possibility that conflict within the team and/or departure of core personnel may occur, resulting in negative influence on the project in the future.

5. Failure to develop
There is the risk that the development of the SafePal Platform will not be executed or implemented as planned, for a variety of reasons, including without limitation the event of a decline in the prices of any digital asset, virtual currency or SFP, unforeseen technical difficulties, and shortage of development funds for activities.
Risks

6. Security weaknesses
Hackers or other malicious groups or organizations may attempt to interfere with SFP and/or the SafePal Platform in a variety of ways, including, but not limited to, malware attacks, phishing attacks, supply chain attacks, and brutal attacks. Furthermore, there is a risk that a third party or a member of the Foundation, the Distributor or their respective affiliates may intentionally or unintentionally introduce weaknesses into the core infrastructure of SFP and/or the SafePal Platform, which could negatively affect SFP and/or the SafePal Platform.

Further, the future of cryptography and security innovations are highly unpredictable and advances in cryptography, or technical advances (including without limitation development of quantum computing), could present unknown risks to SFP and/or the SafePal Platform by rendering ineffective the cryptographic consensus mechanism that underpins that blockchain protocol.
Risks

7. Other risks
In addition, the potential risks briefly mentioned above are not exhaustive and there are other risks associated with your purchase, holding and use of SFP, including those that the Foundation or the Distributor cannot anticipate. Such risks may further materialize as unanticipated variations or combinations of the aforementioned risks. You should conduct full due diligence on the Foundation, the Distributor, their respective affiliates, and the SafePal team, as well as understand the overall framework, mission and vision for the SafePal Platform prior to purchasing SFP.
Welcome to

SafePal

The Gateway of the Web3 Universe
About SafePal

SafePal is the only comprehensive crypto wallet platform that provides unique and diversified asset management solutions for investors looking for comfortable and confident means to create wealth on their own terms. Our core mission is to empower investors toward financial opportunity and freedom in the decentralized world.

SafePal is the first hardware wallet invested by Binance Labs. Founded in 2018 by a team of security, data science and hardware engineers, SafePal has grown substantially in scale and service offerings. Till today, SafePal offers a comprehensive suite of hardware, mobile and extension wallets to the masses.
Secure: Sleep Tight with SafePal

SafePal offers a full suite of secure and easy-to-use decentralized wallet solutions to protect your private keys.
Hardware Wallet Products for Ultra-security

- 100% air-gapped and offline, with no Bluetooth, no WiFi, no NFC or any other radio-frequencies, keeping your private key offline and secure
- Mobile-friendly, manage crypto at any time, anywhere, without a laptop or USB cable
- 1.3’ high resolution IPS screen to display every transaction detail
- Handy d-pad to navigate conveniently, ideal for crypto beginners
- Supports 15 languages and 56 chains
- The most competitive price offerings in the niche ($49.99)
- Sold to 196 countries and regions
- Extensive reseller network in 30+ countries

* Data is last updated in April 2023.
Software Wallet for Accessible User Experience

- 100% decentralized, keeping the private keys in the local cellphone environment
- Import or create wallets via mnemonic phrase, private keys, Keystore and more
- Takes only one minute to set up, ideal for crypto beginners
- Manages crypto assets and access unlimited DApps at the fingertips
- Supports 15 languages and 100+ chains

* Data is last updated in April 2023.
Extension Wallet for Seamless Desktop Experience

- Manage both EVM and non-EVM compatible chains in one place
- Always stay connected to DApps across different chains, no matter which chain you switch to
- Provides advanced security by linking SafePal hardware wallet or mobile wallet to the extension
- One click to connect with other wallets such as Metamask, Trustwallet, Ledger, imToken and more

* Data is last updated in April 2023.
Grow: Scale Your Crypto Wealth

SafePal provides diversified asset management services for users to grow and scale their crypto wealth at fingertips.
Swap and Bridge

• Swap aggregator integrating with both DEX and CEX channels, offering rich options for cross-chain assets migration

Track and Trade

• Never miss a market move by tracking real-time market data
• Trade at your fingertips with the best liquidity from Binance, MEXC, Bitget, 1inch, 0X and more
• Aggregating both CEX and DEX for smooth trading experiences
**Surf and Explore**

- Explore, browse, bookmark and access your favorite DApps in one place safely with our DApp Filtering Mechanism.
- Discover the friendly tools empowered by SafePal such as Revoke Manager, LP Center and more

**Invest and Yield**

- SafePal Earn: A built-in DeFi yield aggregator that eliminates the hassle of DeFi staking investment
- Wallet Holder Offering and Giftbox: Exclusive programs offering early investment opportunities to emerging blockchain projects
**Product Roadmap**

- **2018.01** SafePal was founded
- **2018.10** Received Binance strategic investment
- **2019.05** SafePal S1 hardware wallet was opened for sales
- **2019.12** Implemented flat on-ramp services
- **2020.05** Released SafePal software wallet
- **2020.06** Released cross-chain swap, supporting friction-less asset migration between different blockchains
- **2021.01** Issued $SFP the utility token of SafePal
- **2021.02** Became the first Binance Launchpad project in 2021
- **2021.10** Launched SafePal Earn, a crypto yield aggregator
- **2021.12** Launched Giftbox program
- **2022.01-06** Supported 22 new chains including Cardano, Avalanche, Cosmos and more
- **2022.07** Launched SafePal Extension Wallet
- **2022.08** SafePal launched new brand image
- **2022.09-10** Supported Aptos and Flare
We Go Beyond as a Wallet

SafePal as the user onboarding bridge for public chains
- SafePal provides comprehensive wallet support for our blockchain partners, including their mainnets, native coins, token standards, decentralized applications and NFT standards.
- On top of that, we offer a full suite of education content guiding users among these blockchain ecosystems to secure their crypto assets.
- SafePal also partners with blockchain foundations to boost their ecological growth by supporting their early-stage projects.

SafePal as the user acquisitional gateway for projects
- With a large and active user base, SafePal has become one of the most influential user-acquisitional platforms for blockchain projects to educate, acquire and convert real and high-quality crypto users.
- We have built successful quest campaigns for more than 30 projects, covering DeFi, NFT, DEX, CEX segments and more.
SFP

The growth engine that fuels the entire SafePal ecosystem
About SFP

SFP is the native cryptocurrency issued on the BNB Chain¹ to power the SafePal ecosystem and govern the community. Its total supply is 500 million and the circulating supply is 300 million as of October 31, 2022. On February 8th, 2021, SFP was launched as the first IEO project on Binance Launchpad in 2021².

Till October 2022, SFP is listed on more than 20 CEX and DEX including Binance, PancakeSwap, Kucoin, Bybit, Bitget, MEXC, Gate.io, Biswap and more³. SFP is also available for payment and checkout on the SafePal website and Binance Pay platform⁴.

1  SFP on BNB Chain Explorer: https://bscscan.com/token/0xd41fdb03ba84762dd66a0af1a6c8540ff1ba5dfb
2  SFP was listed as the first IEO project on Binance in 2021: https://www.binance.com/en/support/announcement/3a599775d4474e299c3aed3455e12478/
3  SFP on CoinMarketCap: https://coinmarketcap.com/currencies/safepal/
SFP Key Utilities

- **Fees & Discounts**

Users may use SFP for fees and discounts on the SafePal products and services including but not limited to:

- fees or discounts on purchasing SafePal Hardware Products including wallets and accessories\(^1\)
- fees for submissions to list new DApps
- fees for submissions to list new Tokens
- fees for DApps ranking within the DApp store
